1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, disclosed on page 6, line 28, "a pin-shaped extension 10 (filter support)" has been deleted and a pin-shaped extension of filter support 10 has been inserted after "and."

2. The following is an examiner's statement of reasons for allowance:

Dries et al. teach a filter assembly of where the cross-section of the grid element is a "pointiform." A "pointiform" is defined as the point of the grid elements that are directed in the opposite direction of the gravitational force in order to prevent piling up of solid material onto the grid elements. The pointiform limitation is stated in independent, claims 1, 10, and 11, of the application. Claims 2 – 18 are dependent upon claim 1, and claim 19 is dependent upon claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
